Explanatory Statement

(Pursuant to section 102 of the Companies Act, 2013)

As required by section 102 of the Companies Act, 2013 (Act), the following explanatory statement sets out all material facts relating to the business mentioned under Item Nos. 3, 4 and 6 of the accompanying Notice:

Item No. 3

This explanatory statement is provided though strictly not required as per Section 102 of the Companies Act, 2013.

M/s. Viren Gandhi & Co., Chartered Accountants, Mumbai (Firm Registration No. 111558W) were appointed as Statutory Auditors of the Company for three consecutive financial years w.e.f. financial year 2015-16 at the Annual General Meeting of the Company held on September 20, 2016.

Accordingly, the audit of the Company for financial year 2015-16 was conducted by M/s. Viren Gandhi & Co., Chartered Accountants, Mumbai. Further, as per provisions of Section 139(1) of the Companies Act, 2013 read with Rule 3 of Companies (Audit and Auditors) Rules, 2014, appointment of Statutory Auditor for the above tenure is subject to ratification by members at every Annual General Meeting by way of an ordinary resolution.

Accordingly, ratification of the members is being sought for the proposal contained in the Resolution set out at item no. 3 of the Notice. The Board recommends the Resolution at Item No. 3 for approval by the Members.

None of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution set out at Item No. 3 of the Notice.

Item No. 4

Mr. Vijai Singh Dugar, Independent Director of the Company was appointed pursuant to the approval of members through ordinary resolution passed at the Annual General Meeting of the Company held on September 18, 2014. The term of his current appointment is expiring on September 17, 2017.

In terms of Regulation 19(4) read with Para A - 5 of Part D of Schedule II of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, pursuant to recommendation of Nomination, Remuneration and Compensation Committee, the Board of Directors of the Company at their meeting held on July 26, 2017 approved and recommended to the members for their approval for appointment of Mr. Vijai Singh Dugar for a second term of five years starting from September 18, 2017 to September 17, 2022.

The Board has considered rich experience, knowledge, skills, valuable contribution to the Company and overall performance evaluation of Mr. Vijai Singh Dugar and recommended their re-appointment for second term of consecutive five years to the Members of the Company for approval.

Pursuant to section 149(10) and other applicable provisions of the Companies Act, 2013 and the rules made thereunder, an independent director shall hold office for a term up to five consecutive years on the Board of a company, but shall be eligible for re-appointment on passing of a special resolution by the company and disclosure of such appointment in the Board's report.

Mr. Vijai Singh Dugar has given a declaration to the Board that he meets the criteria of independence as provided under section 149 (6) of the Companies Act, 2013.

In the opinion of the Board, Mr. Vijai Singh Dugar fulfills the conditions as specified in the Companies Act, 2013 and the rules made thereunder read with Schedule IV for appointment as an Independent Director.

The Company has received a notice in writing from member along with the deposit of ₹ 1 lakh as specified in section 160 of the Companies Act, 2013 proposing the candidature of Mr. Vijai Singh Dugar to be re-appointed as an Independent Director of the Company in accordance with the provisions of the Companies Act, 2013.

Mr. Vijai Singh Dugar does not hold any share in the Company in his name.

Copy of the draft letter of appointment of Mr. Vijai Singh Dugar as an Independent Director setting out the terms and conditions is available for inspection by members at the registered office of the Company.

Accordingly, the Board recommends the Special Resolution as set out in item No. 4 of the Notice for the approval of the Members.

MANAGEMENT DISCUSSION & ANALYSIS

Economic review

The outlook for emerging market economies is expected to broadly improve, though volatility in capital flow will remain a challenge. Growth in emerging markets and developing economies is expected to pick up in 2017 on the back of fiscal stimulus measures in developed economies and narrowing of divergence between commodity exporters and importers.

India emerged as a 'bright spot' in an otherwise subdued world economy when it overtook China in 2015-16 as the fastest-growing major economy in the world. The Indian Government's decisive policy maneuvers towards ensuring fiscal consolidation and pegging back inflation will help it maintain economic stability in the years ahead.

Government Initiatives

The Government of India along with the governments of the respective states has taken several initiatives to encourage the development in the real estate sector. The Smart City Project, where there is a plan to build 100 smart cities, is a prime opportunity for the real estate companies.

Policy initiatives by Government - Real Estate (Regulation and Development) Act 2016 (RERA), Goods and Services Tax (GST) etc will have tremendous positive impacts on the industry and shall change the way real estate sector work. All the changes are perceived to be the game changers for the industry in coming years and make it a more organized sector.

Particularly, the positive impact of GST and RERA shall be more visible and impactful by beginning of 2018-2019

Real estate Industry

The real estate sector in India has witnessed a paradigm shift in the last decade. From being a largely unorganized sector in the past, the sector is steadily transforming over the years to become a more structured one. Apart from other factors, much of this transformation can be attributed to investments by institutional private equity and strategic investors in the sector.

After witnessing a roller coaster ride in the past few years, it is time for the segment to forge ahead and become a leading sector with innumerable opportunities. Commercial sector remained un-impacted from all the changes, the demand being driven by country's economic growth. By 2022, real estate and construction sector is expected to generate 75 million jobs in India making it as the largest employer in the country.

With more and more policy initiatives by various Government agencies, working in co-ordination, to provide excess land parcels for development in PPP (Public Private Partnership) scheme, there is going to be significant increase in new developments helping change the future skyline of India.

Warehousing

Demand for warehousing space continued to remain upbeat across most cities with a growth of approximately 37% in 2016 compared to previous year period. E Commerce companies and logistic companies collectively, leased more than 50% of warehousing space during the review period.

Engineering and manufacturing sector companies, electronic retailers and Fast Moving Consumer Goods (FMCG) players were the other prominent sectors driving demand for warehousing during the first half of 2016.

Strong and sustained demand levels amid limited availability of good quality warehouses for immediate possession led to rental value appreciation across select micro-markets. Considering the huge potentials in this sector, the Company resolved to revive its warehousing projects and now planning to set up a facility aggregating to 1.5 million sq ft at Jhajjar and Nagpur.

Retail real estate infrastructure

The Company is contemplating to develop shopping centre cum entertainment center at various locations on long term lease model with land owners. This will help the Company to create assets on capital light model. The Company also completed construction of a shopping center at Karad, Maharashtra and handed over possession to customers during the year under review.

The Company has aligned this business with Star Shopping Centres Private Limited (SSCPL), in which the Company holds 60% equity capital and is managing more than two million sq ft of retail space today in India.

Risk

Business Risk: The business of construction and development is heavily dependent on the performance of the real estate market in India and could be adversely affected if market conditions deteriorate. The real estate market is significantly affected by changes in government policies, economic conditions, demographic trends, employment and income levels and interest rates, among other factors. The development of real estate projects involves various risks including regulatory risks, financing risks and the risks that these projects may ultimately prove to be unprofitable.

Economy Risk: Economic and market conditions can adversely affect the performance of the Company. In particular, the decline in the performance of the global and Indian economies as a result of the economic downturn can reduce demand and occupancy levels in property markets. An increase in interest rates or an increase in the margin on which finance can be obtained may increase the Company and the Subsidiary's financing costs and such increase in interest rates may increase the cost of borrowing, which could have an adverse impact on the Company and the Subsidiary's business, financial condition and results of operations.

Financial Performance

Total Income: The Company achieved total revenue of ₹ 11588.59 Lakhs during the financial year ended March 31, 2017.

Operating Profit: During the year financial year ended March 31, 2017, the Company achieved operating profit of ₹ 3116.04 Lakhs.

Profit/Loss after Tax: The Company recorded loss of ₹ 2406.09 Lakhs for financial year ended March 31, 2017.

Internal Control System and Adequacy:

The Company has adequate internal control procedure commensurate with its size and nature of the business. The internal control system is supplemented by extensive internal audits, regular reviews by management and well-documented policies and guidelines to ensure reliability of financial and all other records to prepare financial statements and other data. Moreover, the Company continuously upgrades these systems in line with best accounting practices. The Company has independent audit systems to monitor the entire operations and the Audit Committee of the Board review the findings and recommendations of the internal auditors.

Human Resources:

The Company regards its human resources as amongst its most valuable assets and proactively reviews policies and processes by creating a work environment that encourages initiative, provides challenges and opportunities and recognizes the performance and potentials of its employees. The industrial relations across different locations of the Company were cordial during the year. The Company has, over the last few months, built the team necessary to be able to build and execute the vision that has been articulated in the preceding paragraphs. The total number of employees of the Company as on March 31, 2017 stood at 24.

Cautionary Statement:

This report contains forward-looking statements based on certain assumptions and expectations of future events. Actual performance, results or achievements may differ from those expressed or implied in any such forward – looking statements. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

No Director is *inter-se*, related to any other Director on the Board nor is related to the other Key Managerial Personnel of the Company.

Chairman of the Board

The Company has appointed Mr. Vijai Singh Dugar, Non-Executive and Independent Director as the Chairman of the Board with effect from May 30, 2015.

Responsibilities of the Chairman and Managing Director

Chairman is responsible for fostering and promoting the integrity of the Board while nurturing a culture where the Board works harmoniously for the long – term benefit of the Company and all its stakeholders. The Chairman is primarily responsible for ensuring the Board provides effective governance to the Company. In doing so, the Chairman presides over meetings of the Board and of the shareholders of the Company.

The Chairman takes a lead role in managing the Board and facilitating effective communication among directors. The Chairman provides independent leadership to the Board, identifies guidelines for the conduct and performance of directors, and oversees the management of the Board's administrative activities such as meetings, schedules, agendas, communication and documentation.

The Chairman will provide independent leadership to the Board, identify guidelines for the conduct and performance of directors, and oversee the management of the Board's administrative activities, such as meetings, schedules, agenda, communication and documentation.

The Chairman actively works with the nomination, remuneration and compensation committee to plan the Board and Board committees' composition, induct directors to the Board, participate in the Board effectiveness evaluation process and meet with individual directors to provide constructive feedback and advice.

Executive management including the Managing Director is responsible for corporate strategy, planning, external contacts and all matters related to the management and operations of the Company.

Role of the Board of Directors

The primary role of the Board is that of trusteeship to protect and enhance shareholder value through strategic direction to the Company. As trustees, the Board has fiduciary responsibility to ensure that the Company has clear goals aligned to shareholder value and its growth. The Board exercises its duties with care, skill and diligence and exercises independent judgment. It sets strategic goals and seeks accountability for their fulfilment. It also directs and exercises appropriate control to ensure that the Company is managed in a manner that fulfills stakeholder's aspirations and social expectations.

Independent Directors

The Companies Act, 2013 and the Listing Regulations, define an "independent director" as a person who is not a promoter or employee or one of the key managerial personnel (KMP) of the Company or its subsidiaries. The law also states that the person should not have a material pecuniary relationship or transactions with the Company or its subsidiaries, apart from receiving remuneration as an independent director and we abide by these definitions of independent director.

The Board includes Directors with independent standing in their respective fields / profession and who can effectively contribute to the Company's business and policy decisions. Their appointment as Independent Directors on the Board is considered by the Nomination, Remuneration and Compensation Committee.

Every Independent Director, at the first meeting of the Board in which he/she participates as a Director and thereafter at the first meeting of the Board in every financial year, gives a declaration that he/she meets the criteria of independence as provided under law.

Selection of new Directors

The Board is responsible for selection of new directors. The Board delegates the screening and selection process to the Nomination, Remuneration and Compensation Committee, which consists majority of independent directors. The committee, based on defined criteria, makes recommendations to the Board on the induction of new directors.

Familiarization programmes for Independent Directors

Independent Directors are provided with necessary documents, reports and internal policies to enable them to familiarize with the Company's procedures and practices. Periodic presentations are made at the Board and Board Committee Meetings, inter alia, on the business and performance updates of the Company, business strategy and risks involved.

The independent directors are updated periodically on all business – related issues and new initiatives. At such meetings, the executive directors and other members of the senior management share points of view and leadership thoughts on relevant issues.

Meetings of Independent Directors

One meeting of the Independent Directors was held during the year without the presence of the Executive Director or management personnel. Such meetings are conducted informally to enable Independent Directors to discuss matters, inter-alia, pertaining to the Company's affairs and put forth their views to the Managing Director.

Tenure of Directorships

The Board constantly evaluates the contribution of the members and periodically shares updates with the shareholders about re-appointments consistent with applicable statutes. The current law in India mandates the retirement of two-third of the non-independent directors (who are liable to retire by rotation) every year, and qualifies the retiring members for reappointment. Executive directors are appointed by the shareholders for a maximum period of five years, but are eligible for re-appointment upon completion of their term. An independent director shall hold office for a term of up to five consecutive years on the Board of the Company and will be eligible for re-appointment on the passing of a special resolution by the Company.

Performance Evaluation

One of the key functions of the Board is to monitor and review the Board evaluation framework. The Board works with the nomination, remuneration and compensation committee to lay down the evaluation criteria for the performance of the Chairman, the Board, Board Committees, and executive / non-executive / independent directors through a peer evaluation, excluding the directors being evaluated. The Board carried out the annual performance evaluation for the year ended March 31, 2017.

The Board expressed its satisfaction on the process as well as performance of all Directors, committees, and Board as a whole.

III. Board Meetings

Scheduling and selection of agenda items

Board meeting dates are finalized in consultation with all the directors. Minimum four pre-scheduled Board meetings are held annually. Additional Board meetings are convened by giving appropriate notice to address the Company's specific needs. In case of business exigencies or urgency of matters, resolutions are passed by circulation.

The Company Secretary drafts the agenda for each meeting, along with explanatory notes, in consultation with Chief Financial Officer, Chief Executive Officer and Managing Director and distributes these in advance to the directors, thereby enabling the Board to effectively and reasonably perform their duties and take informed decisions. Every Board member can suggest the inclusion of additional items in the agenda. Standalone Financial Statements and Notes

INDEPENDENT AUDITOR'S REPORT

To the Members of

FUTURE MARKET NETWORKS LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of FUTURE MARKET NETWORKS LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements to give a true and fair view of the financial position, financial performance ((including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls and ensuring their operating effectiveness and the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act and the rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2017, its profit / losses (including other comprehensive income), its cash flows and changes in equity for the year ended on that date.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of FUTURE MARKET NETWORKS LIMITED ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone* financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act,, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that :

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note issued by Institute of Chartered Accountants of India.

NOTES to financial statements for the year ended March 31, 2017.

1. BACKGROUND

Future Market Networks Limited ("The Company") is a public limited company incorporated in India under the provisions of Companies Act, 1956 and validly existing under Companies Act, 2013. Equity shares of the Company are listed with BSE Limited and National Stock Exchange of India Limited. The company is engaged in the business of building capacity and enabling the infrastructure for future markets in a more efficient and cost effective manner. It aims to create a network of new markets by integrating and better organizing the modern wholesale trade, retail and logistics infrastructure in India. The Company is currently managing approximately 1 million sq ft of retail space and owns various real estate properties across India.

2. Significant Accounting Policies:

a) Basis of preparation

i. Compliance with Ind-AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statements upto year ended March 31, 2016 were prepared in accordance with the Accounting Standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant Provisions of the Act.

These financial statements are the first financial statements of the Company under Ind AS. Refer note-37 for an explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial positions, financial performance and cash flows.

ii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities that is measured at fair value;
- assets held for sale measured at lower of carrying amount or fair value less cost to sell; and
- share-based payments

iii. Current / Non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

b) Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as separate assets, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term. Leasehold improvements are amortised over the period of lease or estimated useful life, whichever is lower.

Useful life considered for calculation of depreciation for various asset's class are as follows:-

• Leasehold Improvements	16 years
• Machinery	10 years
• Furniture, fittings and equipment	10 years
• Office and other equipments	5 Years
• Computers	3 Years

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

c) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Freehold land is carried at cost. Investment properties are depreciated using the straight-line method over their estimated useful lives.

Useful life considered for calculation of depreciation for Freehold Building is as follows-

- Freehold buildings 60 years

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its investment properties recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of investment properties.

d) Investments and other financial assets:

i. **Classification**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss), and
- those measured at amortised cost.

The Classification depends on the entity's business model for managing the financial assets and the contractual term of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

ii. **Measurement of financial assets**

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into following categories:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method.

Equity instruments

The Company subsequently measures all equity investments other than in subsidiaries, joint ventures and associates at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to Statement of Profit and Loss. Dividends from such investments are recognised in profit or loss as other income when the Company established.

iii. **Impairment of financial assets**

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 24 details how the company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

iv. **Derecognition of financial assets**

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

A financial liability is recognised when the obligation specified in the contract is discharged, completed or expired.

e) **Interest income**

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example prepayment, extension, call and similar options) but does not consider the expected credit losses.

f) **Dividends**

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

g) **Trade receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method less provision for impairment.

h) **Cash and Cash Equivalents**

Cash and cash equivalents includes cash in hand, deposits with banks and short term highly liquid investments, which are readily convertible into cash and have original maturities of three months or less from the Balance Sheet date.

i) **Revenue Recognition:**

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Recognising revenue from major business activities

Sale of Goods

Sales are recognized when significant risk and rewards of ownership of goods have passed to the buyer which coincides with the delivery and they are recorded net of trade discounts, VAT and sales tax.

Income from Services

Revenue from services rendered is recognized as the service is performed based on agreements/ arrangement with concerned parties and revenue from end of the last billing to the balance sheet date is recognized as unbilled revenue.

Lease rentals income is recognized in the Statement of Profit and Loss as per the terms of agreement which is representative of the time pattern of the user's benefit.

j) **Non-current assets held for sale**

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement. Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal Company classified as held for sale continue to be recognised.

k) Employee Benefits:

Short term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees's service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Post-employment obligations

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) defined contribution plans such as provident fund.

Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the Projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Share-based payments

Estimating fair values for share based payment transaction requires the most appropriate valuation model, which depends on the terms and conditions of the grant. The estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity settled transactions with employees at the grant date, the Company uses Black – Scholes model. The assumptions used for estimating the fair value for share based transactions are disclosed in Note 29.

l) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

m) Leases:

As a lessee

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

n) Foreign Currency transactions:

Functional and presentation currency

Items included in the financial statements of the Company's are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Indian rupee (INR), which is Future Market Networks Limited's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

o) Inventories:

Inventories which comprise of finished stock of completed projects are valued at lower of cost or net realizable value. Cost is determined by including cost of land (including development rights), internal development cost, external development charges, materials, services, related overheads and apportioned borrowing costs.

p) Investments in subsidiaries, joint ventures and associates

Investments in subsidiaries, joint ventures and associates are recognised at cost as per Ind AS 27. Except where investments accounted for at cost shall be accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale.

q) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (note 26).

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

r) Segment Reporting:

The Company is primarily engaged in the activity of mall management business and considers it to be a single reportable business segment. The operations of the Company are within the geographical territory of India which is considered as a single geographical segment. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Managing Director, who has been identified as being the chief operating decision maker, assesses the financial performance and position of the company, and makes strategic decisions. Refer note 25 for segment information presented.

s) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

t) Borrowing costs

Borrowing costs directly attributable to the acquisition and construction of an asset which takes a substantial period of time to get ready for its intended use are capitalized as a part of the cost of such assets, until such time the asset is substantially ready for its intended use. All other borrowing costs are recognized in the Statement of Profit and Loss in the period they occur. Borrowing costs consist of interest and other costs incurred in connection with borrowing of funds.

Other borrowing costs are expensed in the period in which they are incurred.

u) Provisions and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The increase in the provision due to the passage of time is recognised as interest expense. Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

v) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

w) Critical estimates and judgments

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal and actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- Estimation of defined benefit obligation - (Note No. 14)
- Estimation of current tax expense and payable - (Note No. 6)
- Estimated Fair value of unlisted securities - (Note No. 23)

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

x) Recent accounting pronouncements:

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) to IAS 7, 'Statement of cash flows' and IFRS 2, 'Share-based payment,' respectively. The amendments are not applicable to the company.

Valuation processes

The Company has obtained assistance of independent and competent third party valuation experts to perform the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. Discussions of valuation processes and results are held between the Company and the valuer on periodic basis. Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of trade receivables, trade payables, cash and cash equivalent, Bank balances other than above, other financial assets and other financial liabilities approximate their carrying amounts largely due to short term maturities of these instruments.
2. The fair values for loans and security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 in the fair value hierarchy due to the inclusion of observable inputs.
3. The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.
4. For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.
5. The fair value of the long-term Borrowings with floating-rate of interest is not impacted due to interest rate changes and will not be significantly different from their carrying amounts as there is no significant change in the under-lying credit risk of the Company borrowing (since the date of inception of the loans). Further, the Company has no long-term Borrowings with fixed rate of interest.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

24. Financial risk management

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk are reviewed regularly to reflect changes in market conditions and the company's activities.

(All amounts in INR lakhs, unless otherwise stated)

A. Market risks

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. The company is not exposed to any foreign currency risk as neither operates internationally nor has any foreign currency transaction.

(a) Price Risk - Exposure:

The Company's exposure to equity securities price risk arises from investments held by the Company and classified in the balance sheet at fair value through OCI. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

(b) Interest rate risk:

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

	March 31, 2017	March 31, 2016	April 1, 2015
Variable rate borrowings	22,700.56	27,850.62	30,240.48
Percentage of variable rate borrowings to total borrowings	100%	100%	100%
Total borrowings	22,700.50	27,850.62	30,240.48

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

	Impact on profit after tax		
	March 31, 2017	March 31, 2016	April 1, 2015
Interest rates – increase by 50 basis points*	(113.50)	(139.25)	(151.20)
Interest rates – decrease by 50 basis points*	113.50	139.25	151.20

*Holding all other variables constant

B. Credit Risks

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables).

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management.

The Company measures the expected credit loss of trade receivables and loan & advances customers wise based on historical trend. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no additional provision considered.

Movement in provisions of doubtful debts

	As at March 31, 2017	As at March 31, 2016
Opening provision	666.64	658.01
Add: Additional provision made	-	8.62
Less: Provision write off	74.12	-
Less: Provision reversed	507.90	-
Closing provisions	84.62	666.64
Financial Assets are considered to be of good quality and there is no significant increase in credit risk		

C. Liquidity Risk:

Liquidity risk is the risk that the company will face in meeting its obligations associated with its financial liabilities. The company's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. A material and sustained shortfall in our cash flow could undermine the company's credit rating and impair investor confidence.

37. First-time adoption of Ind AS

Transition to Ind AS

These are the first financial statements prepared in accordance with Ind AS.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31 March 2017, the comparative information presented in these financial statements for the year ended 31 March 2016 and in the preparation of an opening Ind AS balance sheet at April 1, 2015 (the company's date of transition). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the company's financial position, financial performance and cash flows is set out in the following tables and notes.

A. Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A.1 Ind AS optional exemptions:

A.1.1 Deemed Cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly, the company has elected to measure all of its property, plant and equipment, intangible assets and investment property at their previous GAAP carrying value.

A.1.2 Designation of previously recognized Financial Instruments

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS.

The company has elected to apply this exemption for its investment in equity investments.

A.1.3 Leases

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In

Notes to the financial statements for the year ended March 31, 2017

(All amounts in INR lakhs, unless otherwise stated)

accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be not material.

The company has elected to apply this exemption for such contracts/arrangements.

A.1.4 Share Based Payments

A first-time adopter is encouraged, but not required, to apply Ind AS 102 *Share-based payment* to equity instruments that vested before date of transition to Ind AS.

The company has elected not to apply Ind AS 102 sharebased payments to the equity instruments that vested before date of transition to Ind AS.

A.2 Ind AS mandatory exceptions
A.2.1 Classification and measurement of financial assets

As required by Ind AS 101, an entity to assessed the classification and measurement of financial assets (investment in debt instrument) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

A.2.2 Estimates:

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies). Ind AS estimates as at April 1, 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP. The company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in equity instruments carried at FVOCI;
- Impairment of financial assets based on expected credit loss model.

B. Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following table represent the reconciliations from previous GAAP to Ind AS.

Standalone Reconciliation of total equity as at March 31, 2016 and April 1, 2015

Total comprehensive income for the period		3,632.72

Impact of Ind AS on the Statements of Cash Flows for the year ended March 31, 2016:

The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended March 31, 2016 as compared with the previous GAAP.

C. Notes to first time adoption:**Note 1. Fair valuation of investments**

Under the previous GAAP, investments in equity instruments and mutual funds were classified as long-term investments or current investments based on the intended holding period and realisability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value. Under Ind AS, these investments are required to be measured at fair value.

Fair value changes with respect to investments in equity instruments designated as at FVOCI have been recognised in FVOCI Equity investments reserve as at the date of transition and subsequently in the other comprehensive income for the year ended 31 March 2016.

Consequent to the above, the total equity as at March 31, 2016 decreased by ₹ **259.60 Lakhs** (April 1, 2015 ₹ **4758.67 Lakhs**) and Loss for the year ended March 31, 2016 was decreased by ₹ **4,546.05 Lakhs** and other comprehensive income for the year ended March 31, 2016 increased by ₹ **46.98 Lakhs** respectively.

Note 2. Borrowings

Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method. Further, interest free loan given to group company without any repayment terms are treated as Subordinated debts and reclassified from borrowings to Equity.

Under previous GAAP, these transaction costs were charged to profit or loss as and when incurred. Accordingly, borrowings as at March 31, 2016 have been reduced by ₹ **3,124.89 Lakhs** (April 1, 2015 ₹ **3,151.23 Lakhs**) with a corresponding adjustment to retained earnings. The total equity increased by an equivalent amount. The loss for the year ended March 31, 2016 increased by ₹ **26.34 Lakhs** as a result of the additional interest expense.

Note 3. Investment property

Under the previous GAAP, investment properties were presented as part of non-current investments. Under Ind AS, investment properties are required to be separately presented on the face of the balance sheet. There is no impact on the total equity or profit as a result of this adjustment.

Note 4. Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liabilities are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the loss for the year ended March 31, 2016 decreased by ₹ **2.04 Lakhs** and other comprehensive income has been increased by ₹ **2.04 Lakhs**. There is no impact on the total equity as at March 31, 2016.

Note 5. Employee stock option expense

Under the previous GAAP, the cost of equity-settled employee share-based plan were recognised using the intrinsic value method. Under Ind AS, the cost of equity settled share-based plan is recognised based on the fair value of the options as at the grant date. Consequently, the amount recognised in share option outstanding account increased by ₹ **6.71 Lakhs** as at March 31, 2016 (April 1, 2015 ₹ **9.32 Lakhs**). The profit for the year ended March 31, 2016 decreased by ₹ **1.98 Lakhs**. There is no impact on total equity.

Notes to the financial statements for the year ended March 31, 2017**(All amounts in INR lakhs, unless otherwise stated)**

Under the previous GAAP, the cost of equity settled group share based payments were not recognised in the books of the Company. Under Ind AS, the cost of equity settled group share based payments is recognised, based on the fair value of the shares as at the grant date, as increase in contribution from the parent in equity of an associate. Consequently, the amount recognised in employee benefits reserve on account of group share based payment increased by ₹ **5.73 Lakhs** as at March 31, 2016 (April 1, 2015 ₹ **4.98 Lakhs**).

Note 6. Interest free security deposits and loans

Under the previous GAAP, interest free lease security deposits/loans (that are refundable in cash) are recorded at their transaction value. Under Ind AS, all financial assets are required to be recognised at fair value. Accordingly, the company has fair valued these security deposits taken / given and interest free loans given under Ind AS. Difference between the fair value and transaction value of the security deposit taken has been recognised as deferred rent income and for security deposit given and loans given are recognised as deferred expenses except for loan given to an associate company wherein the Company has taken an option to recognise entire difference to opening retained earnings. Consequent to this change, for the security deposits taken, security deposits is decreased by ₹ **2,263.72 Lakhs** as at March 31, 2016 (April 1, 2015 ₹ **2,920.10 Lakhs**). The deferred rent is increased by ₹ **2,000.25 Lakhs** as at March 31, 2016 (April 1, 2015 ₹ **2,736.04 Lakhs**). Total equity increased by ₹ **184.04 Lakhs** as on April 1, 2015. The loss for the year and total equity as at March 31, 2016 decreased by ₹ **79.43 Lakhs** due to amortisation of deferred rent of ₹ **761.29 Lakhs** which is partially off-set by the notional interest expenses of ₹ **681.86 Lakhs** recognised in security deposits taken. For security deposits given, security deposits is decreased by ₹ **980.66 Lakhs** as at March 31, 2016 (April 1, 2015 ₹ **1,078.74 Lakhs**). The prepaid rent is increased by ₹ **747.61 Lakhs** as at March 31, 2016 (April 1, 2015 ₹ **808.07 lacs**). Total equity decreased by ₹ **270.67 Lakhs** as on April 1, 2015. The loss for the year and total equity as at March 31, 2016 decreased by ₹ **37.62 Lakhs** due to amortisation of prepaid rent of ₹ **187 Lakhs** which is partially off-set by the notional interest income of ₹ **224.62 Lakhs** recognised in security deposits given. For interest free loans given loan is decreased by ₹ **1,942.28 Lakhs** as at March 31, 2016 (April 1, 2015 ₹ **2,098.14 Lakhs**). The prepaid interest is increased by ₹ **356.21 Lakhs** as at March 31, 2016 (April 1, 2015 ₹ **556.92 Lakhs**). Total equity decreased by ₹ **1,541.22 Lakhs** as on April 1, 2015. ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS OF FUTURE MARKET NETWORKS LIMITED

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ in the Independent Auditor’s Report of even date)

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of FUTURE MARKET NETWORKS LIMITED (“the Holding Company”), its subsidiaries and jointly venture (the holding company and its subsidiaries together referred to as “the Group”), as of March 31, 2017 in conjunction with our audit of the consolidated financial statements of the Holding Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company’s its subsidiaries, associates, and jointly controlled entities all incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Holding Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls both applicable to an audit of internal financial controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company, its subsidiaries, its associates and its jointly controlled entities have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the the Holding Company, its subsidiaries, its associates and its jointly ventures considering the essential components of internal control stated in the Guidance Note on Audit On Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to the consolidated financial statements for the year ended March 31, 2017

1. BACKGROUND

Future Market Networks Limited (the Group) is a public limited Group incorporated in India under the provisions of Companies Act, 1956 and validly existing under Companies Act, 2013. Equity shares of the Group are listed with BSE Limited and National Stock Exchange of India Limited. The Group is engaged in the business of building capacity and enabling the infrastructure for future markets in a more efficient and cost effective manner. It aims to create a network of new markets by integrating and better organizing the modern wholesale trade, retail and logistics infrastructure in India. The Group is currently managing approximately 1 million sq ft of retail space and owns various real estate properties across India.

2. Significant Accounting Policies:

(a) Basis of preparation

(i) Compliance with Ind-AS :

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statements upto year ended March 31, 2016 were prepared in accordance with the accounting Standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant Provisions of the Act.

These financial statements are the first financial statements of the Group under Ind AS. Refer note 38 for an explanation of how the transaction from previous GAAP to Ind AS has affected the Group's financial positions, financial performance and cash flows.

(ii) Historical cost convention:

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities that is measured at fair value;
- assets held for sale measured at lower of carrying amount or fair value less cost to sell; and
- share-based payments

(iii) Current non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

Principles of consolidation and equity accounting:

(i) *Subsidiaries*

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. InterGroup transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

(ii) *Associates*

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iv) below), after initially being recognised at cost.

(iii) *Joint ventures*

Interests in joint ventures are accounted for using the equity method (see (iv) below), after initially being recognised at cost in the consolidated balance sheet.

(iv) *Equity method*

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post -acquisition profits or losses of the investee in profit and loss, an other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in note below.

(v) *Changes in ownership interests*

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity (note 34).

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(b) Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate assets, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term. Leasehold improvements are amortised over the period of lease or estimated useful life, whichever is lower.

• Leasehold Improvements	16 years
• Machinery	10 years
• Furniture, fittings and equipment	10 years
• Office and other equipments	5 Years
• Computer and software	3 Years

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

(c) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Freehold land is carried at cost. Investment properties are depreciated using the straight-line method over their estimated useful lives.

Useful life considered for calculation of depreciation for Freehold Building is as follows-

- Freehold buildings 60 years

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its investment properties recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of investment properties.

(d) Investments and other financial assets:

i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The Classification depends on the entity's business model for managing the financial assets and the contractual term of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(ii) Measurement of financial assets

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments:

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its debt instruments into following categories:

- a. Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to Statement of Profit and Dividends from such investments are recognised in profit or loss as other income when the Group established.

(i) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 24 details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(ii) Derecognition of financial assets

A financial asset is derecognised only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

A financial liability is recognised when the obligation specified in the contract is discharged, completed or expired.

(iii) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

(e) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(f) Cash and Cash Equivalents

Cash and cash equivalents includes cash in hand, deposits with banks and short term highly liquid investments, which are readily convertible into cash and have original maturities of three months or less from the Balance Sheet date.

(g) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Recognising revenue from major business activities

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and can be reliably measured.

Sale of Goods

Sales are recognized when significant risk and rewards of ownership of goods have passed to the buyer which coincides with the delivery and they are recorded net of trade discounts, VAT and sales tax.

Income from Services

Revenue from services rendered is recognized as the service is performed based on agreements/ arrangement with concerned parties and revenue from end of the last billing to the balance sheet date is recognized as unbilled revenue.

Lease rentals income is recognized in the Statement of Profit and Loss as per the terms of agreement which is representative of the time pattern of the user's benefit.

(h) Impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(i) Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement. Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal Group classified as held for sale continue to be recognised.

(j) Employee Benefits

Short term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees's service upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Post-employment obligations

The Group operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) defined contribution plans such as provident fund.

Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Re measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The Group pays provident fund contributions to publicly administered provident funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Termination Benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits at the earlier of the following dates: (a) when the Group can no longer withdraw the offer of those benefits; and (b) when the Group recognizes costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

Share-based payments

Estimating fair values for share based payment transaction requires the most appropriate valuation model, which depends on the terms and conditions of the grant. The estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity settled transactions with employees at the grant date, the Group uses Black – Scholes model. The assumptions used for estimating the fair value for share based transactions are disclosed in Note 29.

(k) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Group will pay normal income tax during the specified period.

(l) Leases

As a lessee

Leases of property, plant and equipment where the Group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

As a lessor

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

(m) Foreign Currency transactions

Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Indian rupee (INR), which is Group's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

(n) Inventories

Inventories which comprise of finished stock of completed projects are valued at lower of cost or net realizable value. Cost is determined by including cost of land (including development rights), internal development cost, external development charges, materials, services, related overheads and apportioned borrowing costs.

(o) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (note 26).

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(p) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Group is primarily engaged in the activity of mall management business and considers it to be a single reportable business segment. The operations of the Group are within the geographical territory of India which is considered as a single geographical segment. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Managing Director, who has been identified as being the chief operating decision maker, assesses the financial performance and position of the Group, and makes strategic decisions. Refer note 25 for segment information presented.

(q) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(r) Borrowing costs

Borrowing costs directly attributable to the acquisition and construction of an asset which takes a substantial period of time to get ready for its intended use are capitalized as a part of the cost of such assets, until such time the asset is substantially ready for its intended use. All other borrowing costs are recognized in the Statement of Profit and Loss in the period they occur. Borrowing costs consist of interest and other costs incurred in connection with borrowing of funds.

Other borrowing costs are expensed in the period in which they are incurred.

(s) Provisions and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The increase in the provision due to the passage of time is recognised as interest expense. Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

(t) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

(u) Critical estimates and judgments

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal and actual results. Management also needs to exercise judgement in applying the Groups accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- a) Estimation of defined benefit obligation - Note 14
- b) Estimation of current tax expense and payable - Note 6
- c) Estimated Fair value of unlisted securities - Note 23

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

(v) Recent accounting pronouncements:

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) to IAS 7, 'Statement of cash flows' and IFRS 2, 'Share-based payment,' respectively. The amendments are not applicable to the company.

In July 2016, the Board of directors resolved to dispose 10 Acres Mall situated at Ahmedabad which is vested with the Company through an approved scheme of amalgamation. The buyer has been identified and the sale is expected to be completed before the end of financial year 2018. The asset is presented separately under assets held for sale.

However, in March 2017, the Board of directors of Future Market Networks Limited decided to sell the investment in Naman Mall Management Company Private Limited (subsidiary) which was acquired in June 2016. Accordingly, the buyer has been identified and a Share Purchase Agreement has been executed among the parties on March 30, 2017 for the sale of shares on such conditions as contained therein. The asset is presented separately under assets held for sale (Refer Note 27 on Discontinued Operations).

Non-recurring fair value measurements

Assets classified as held for sale during the reporting period was measured at the lower of its carrying amount and fair value less costs to sell at the time of the reclassification. The fair value of the assets was based on the proposed sales consideration negotiated with the buyer.

Valuation processes

The Group has obtained assistance of independent and competent third party valuation experts to perform the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. Discussions of valuation processes and results are held between the Group and the valuer on periodic basis. Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of trade receivables, trade payables, cash and cash equivalent, Bank balances other than above, other financial assets and other financial liabilities approximate their carrying amounts largely due to short term maturities of these instruments.
2. The fair values for loans and security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 in the fair value hierarchy due to the inclusion of observable inputs.
3. The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

Notes to the consolidated financial statements for the year ended March 31, 2017

(All amounts in INR lakhs, unless otherwise stated)

4. For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.
5. The fair value of the long-term Borrowings with floating-rate of interest is not impacted due to interest rate changes and will not be significantly different from their carrying amounts as there is no significant change in the under-lying credit risk of the Company borrowing (since the date of inception of the loans). Further, the Company has no long-term Borrowings with fixed rate of interest.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

24. Financial risk management

The Group's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Group's senior management has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk are reviewed regularly to reflect changes in market conditions and the Group's activities.

A. Market Risks

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. The Group is not exposed to any foreign currency risk as neither operates internationally nor has any foreign currency transaction.

(a) Price Risk - Exposure:

The Group's exposure to equity securities price risk arises from investments held by the Group and classified in the balance sheet at fair value through OCI. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

(b) Interest rate risk

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

	March 31, 2017	March 31, 2016	April 1, 2015
Variable rate borrowings	26,588.54	31,914.72	68,981.95
Percentage of variable rate borrowings to total borrowings	100%	100%	100%
Total borrowings	26,588.54	31,914.72	68,981.95

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

	Impact on profit after tax		
	March 31, 2017	March 31, 2016	April 1, 2015
Interest rates – increase by 100 basis points*	265.89	319.15	689.82
Interest rates – decrease by 20 basis points*	53.18	63.83	137.96

*Holding all other variables constant

B. Credit Risks

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables).

Trade receivables

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management.

The Group measures the expected credit loss of trade receivables and loan & advances customer wise based on historical trend. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no additional provision considered.

Add:- Additional provision made	-	8.62
Less:- Provision write off	74.11	-
Less:- Provision reversed	507.90	-
Closing provisions	84.62	666.64

Financial Assets are considered to be of good quality and there is no significant increase in credit risk

C. Liquidity Risk:

Liquidity risk is the risk that the Group will face in meeting its obligations associated with its financial liabilities. The Group's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. A material and sustained shortfall in our cash flow could undermine the Group's credit rating and impair investor confidence.

The following table shows the maturity analysis of the Group's financial liabilities based on contractually agreed undiscounted cash flows as at the balance sheet date:

D. Capital Management

The Group aim to manages its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to our shareholders.

The capital structure of the Group is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group does not distribute dividends to the shareholders.

25. Segment information

The matters are pending before the High Court, Calcutta.

38. First-time adoption of Ind AS

Transition to Ind AS

These are the first financial statements prepared in accordance with Ind AS.

The accounting policies set out in Note 1 have been applied in preparing the financial statements for the year ended March 31, 2017, the comparative information presented in these financial statements for the year ended March 31, 2016 and in the preparation of an opening Ind AS balance sheet at April 1, 2015 (the Group's date of transition). In preparing its opening Ind AS balance sheet, the Group has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Group's financial position, financial performance and cash flows is set out in the following tables and notes.

A. Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A.1 Ind AS optional exemptions:

A.1.1 Business combinations

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date. The Group elected to apply Ind AS 103 prospectively to business combinations occurring after its transition date. Business combinations occurring prior to the transition date have not been restated. The Group has applied same exemption for investment in associates and joint ventures.

A.1.2 Deemed Cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for decommissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly, the Group has elected to measure all of its property, plant and equipment, intangible assets and investment property at their previous GAAP carrying value.

A.1.3 Designation of previously recognized Financial instruments

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS.

The Group has elected to apply this exemption for its investment in equity investments.

A.1.4 Leases

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be not material.

The Group has elected to apply this exemption for such contracts/arrangements.

A.1.5 Joint ventures

Ind AS 101 provides an exemption for changing from proportionate consolidation to the equity method. As per the exemption, when changing from proportionate consolidation to the equity method, an entity should recognise its investment in the joint venture at transition date to Ind AS. That initial investment should be measured as the aggregate of the carrying amounts of the assets and liabilities that the entity had previously proportionately consolidated, including any goodwill arising from acquisition. The balance of the investment in joint venture at the date of transition to Ind AS, determined in accordance with the above is regarded as the deemed cost of the investment at initial recognition.

The Group has elected to apply this exemption for its joint venture.

Notes to the consolidated financial statements for the year ended March 31, 2017

(All amounts in INR lakhs, unless otherwise stated)

A.1.6 Share Based Payments

A first-time adopter is encouraged, but not required, to apply Ind AS 102 Share-based payment to equity instruments that vested before date of transition to Ind AS.

The Group has elected not to apply Ind AS 102 share based payments to the equity instruments that vested before date of transition to Ind As.

A.2 Ind AS mandatory exceptions
A.2.1 Classification and measurement of financial assets

As required by Ind AS 101 an entity to assessed the classification and measurement of financial assets (investment in debt instrument) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

A.2.2 Non-controlling interests

Ind AS 110 requires entities to attribute the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests. This requirement needs to be followed even if this results in the non-controlling interests having a deficit balance. Ind AS 101 requires the above requirement to be followed prospectively from the date of transition. Consequently, the Group has applied the above requirement prospectively.

A.2.3 Estimates:

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies). Ind AS estimates as at April 1, 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Group made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in equity instruments carried at FVOCI;
- Impairment of financial assets based on expected credit loss model.

B. Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following table represent the reconciliations from previous GAAP to Ind AS.

Notes to the consolidated financial statements for the year ended March 31, 2017

(All amounts in INR lakhs, unless otherwise stated)

Impact of Ind AS on the Consolidated Statements of Cash Flows for the year ended March 31, 2016:

The Ind AS adjustments are either non cash adjustments or are reGrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended 31st March, 2016 as compared with the previous GAAP except as mentioned below for Investment accounted in Equity method. (Refer note C-8 below)

C. Notes to first time adoption:

Note 1. Fair valuation of investments

Under the previous GAAP, investments in equity instruments were classified as long-term investments or current investments based on the intended holding period and realisability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value. Under Ind AS, these investments are required to be measured at fair value.

Fair value changes with respect to investments in equity instruments designated as at FVOCI have been recognised in FVOCI-Equity investments reserve as at the date of transition and subsequently in the other comprehensive income for the year ended March 31, 2016.

Consequent to the above, the total equity as at March 31, 2016 increased by ₹ **480.45 lakhs** (April 1, 2015 - ₹ **(4,780.67 lakhs)**) and loss for the year ended March 31, 2016 and other comprehensive income was decreased by ₹ **6,182.88 lakhs**.

Note 2. Borrowings

Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method. Further, interest free loan given to Group company without any repayment terms are treated as Subordinated debts and reclassified from borrowings to Equity.

Under previous GAAP, these transaction costs were charged to profit or loss as and when incurred. Accordingly, borrowings as at March 31, 2016 have been increased by ₹ **3,124.89 lakhs** (April 1, 2015 ₹ **3,151.22 lakhs**) with a corresponding adjustment to retained earnings. The total equity increased by an equivalent amount. The loss for the year ended March 31, 2016 increased by ₹ **26.33 lakhs** as a result of the additional interest expense.

Note 3. Investment property

Under the previous GAAP, investment properties were presented as part of non-current investments. Under Ind AS, investment properties are required to be separately presented on the face of the balance sheet. There is no impact on the total equity or profit as a result of this adjustment.

Note 4. Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the loss for the year ended March 31, 2016 and other comprehensive income is decreased and increased by ₹ **2.04 lakhs**. There is no impact on the total equity as at March 31, 2016.

Note 5. Employee stock option expense

Under the previous GAAP, the cost of equity-settled employee share-based plan were recognised using the intrinsic value method. Under Ind AS, the cost of equity settled share-based plan is recognised based on the fair value of the options as at the grant date. Consequently, the amount recognised in share option outstanding account increased by ₹ **6.71 lakhs** as at March 31, 2016 (April 1, 2015- ₹ **9.32 lakhs**). The loss for the year ended March 31, 2016 increased by ₹ **1.98 lakhs**. There is no impact on total equity.

Under the previous GAAP, the cost of equity settled Group share based payments were not recognised in the books of the Company. Under Ind AS, the cost of equity settled Group share based payments is recognised, based on the fair value of the shares as at the grant date, as increase in contribution from the parent in equity of an associate. Consequently, the amount recognised in employee benefits reserve on account of Group share based payment increased by ₹ **5.73 lakhs** as at March 31, 2016 (April 1, 2015 ₹ **4.98 lakhs**).

Note 6. Interest free security deposits and loans

Under the previous GAAP, interest free lease security deposits/loans (that are refundable in cash) are recorded at their transaction value. Under Ind AS, all financial assets are required to be recognised at fair value. Accordingly, the company has fair valued these security deposits taken / given and interest free loans given under Ind AS. Difference between the fair value and transaction value of the security deposit taken has been recognised as deferred rent income and for security deposit given and loans given are recognised as deferred expenses except for loan given to an associate company wherein the Company has taken an option to recognise entire difference to opening retained earnings. Consequent to this change, for the security deposits taken, security deposits is decreased by ₹ **2,363.48 lakhs** as at March 31, 2016 (April 1, 2015 ₹ **3,085.46 lakhs**). The deferred rent is increased by ₹ **2,056.41 lakhs** as at March 31, 2016 (April 1,

Notes to the consolidated financial statements for the year ended March 31, 2017

(All amounts in INR lakhs, unless otherwise stated)

2015 ₹ 2871.98 lakhs). Total equity increased by ₹ 213.48 lakhs as on April 1, 2015. The loss for the year and total equity as at March 31, 2016 decreased by ₹ 79.04 lakhs due to amortisation of deferred rent of ₹ 841.06 lakhs which is partially off-set by the notional interest expenses of ₹ 747.47 lakhs recognised in security deposits taken and loss on sale of subsidiary amounting to ₹ 14.56 lakhs. For security deposits given, security deposits is decreased by ₹ 980.66 lakhs as at March 31, 2016 (April 1, 2015 ₹ 1,078.74 lakhs). The prepaid rent is increased by ₹ 747.61 lakhs as at March 31, 2016 (April 1, 2015 ₹ 808.07 lakhs). Total equity decreased by ₹ 270.67 lakhs as on April 1, 2015. The loss for the year and total equity as at March 31, 2016 decreased by ₹ 37.62 lakhs due to amortisation of prepaid rent of ₹ 187 lakhs which is partially off-set by the notional interest income of ₹ 224.62 lakhs recognised in security deposits given. For interest free loans given loan is decreased by ₹ 1,942.28 lakhs as at March 31, 2016 (April 1, 2015 ₹ 2,098.14 lakhs). The prepaid interest is increased by ₹ 356.21 lakhs as at March 31, 2016 (April 1, 2015 ₹ 556.92 lakhs). Total equity decreased by ₹ 1,541.22 lakhs as on April 1, 2015. The loss for the year and total equity as at March 31, 2016 increased by ₹ 26.85 lakhs due to amortisation of prepaid interest of ₹ 200.71 lakhs and additional loan taken by an Associate wherein the Company has taken an option to charge day one difference between fair value and transaction value to profit or loss of ₹ 272.29 lakhs which is partially off-set by the notional interest income of ₹ 446.15 lakhs recognised in loans given.

Note 7. Deferred tax

Deferred tax on Ind AS adjustments.

Note 8. Investment accounted in Equity method

- a) As required under IND AS 28 Investments in Associates and Joint Ventures, the Group has accounted for Interest in Joint venture as at transition date by equity method. Accordingly all assets and liabilities pertaining to Joint ventures which were consolidated line by line in previous accounting standards were excluded and balance difference between assets and liabilities pertains to Investment in Joint ventures accounted under previous GAAP. Further, adjustment to the effect of Ind AS in Joint ventures accounts have been given in Consolidated accounts as at transition date.
- b) Under previous GAAP, one entity controls another entity when it has the ownership of more than one-half of the voting power of the other entity or control of the composition of the board of directors so as to obtain economic benefits from its activities. Under IGAAP as on April 1, 2015, FMNL holds 70% in Future Trade Markets Private Limited and 60% in Star Shopping Centres Private as been considered as subsidiaries. Under Ind AS based on the control assessment carried out by the Group under Ind AS 110 Future Trade Markets Private Limited and Star Shopping Centers private Limited will be considered as a joint venture of the Group. Accordingly, under IGAAP the assets, liabilities, incomes and expenses of Future Trade Markets Private Limited and Star Shopping Centers private Limited have been consolidated with the Group on a line by line basis. The Group has also recognised non-controlling interests Future Trade Markets Private Limited and Star Shopping Centers private Limited. Further, adjustment to the effect of Ind AS in Joint ventures accounts have been given in Consolidated accounts as at transition date.

Note 9: Impairment of Goodwill and loss of control

Under the previous GAAP, Goodwill was amortised over the period of 5 years. However under Ind AS, an entity is required to test an intangible asset with an indefinite useful life for impairment by comparing its recoverable amount with its carrying amount. Accordingly, impairment assessment of Ojas Mall Management Private Limited was carried out as on 1st April 2015 and entire goodwill was impaired and amount amortised in 2016 was reversed. Further, there was a loss of control during the year ended 31 March 2016. Consequently, the profit or loss on de-subsidarisation was adjusted to the effect of impairment and other Ind AS adjustment given in Consolidated accounts.

Note 10. Other comprehensive income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans and fair value gains or (losses) on FVOCI equity instruments. The concept of other comprehensive income did not exist under previous GAAP.
