### **Explanatory Statement (Pursuant to section 102 of the Companies Act, 2013)**

As required by section 102 of the Companies Act, 2013 (Act), the following explanatory statement sets out all material facts relating to the business mentioned under Item No. 4, 5 & 6 of the accompanying Notice:

#### **Item No. 4**

Mr. Somayajulu Ayyanna Kodukula, Independent Director of the Company was appointed pursuant to the approval of members through ordinary resolution passed at the Annual General Meeting of the Company held on September 29, 2015. The term of his current appointment is expiring on September 28, 2018.

In terms of Regulation 19(4) read with Para A - 5 of Part D of Schedule II of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, pursuant to recommendation of Nomination, Remuneration and Compensation Committee, the Board of Directors of the Company at their meeting held on July 31, 2018 approved and recommended to the members for their approval for appointment of Mr. Somayajulu Ayyanna Kodukula, (DIN: 02535927) for a second term of two years starting from September 28, 2018 to September 27, 2020.

The Board has considered rich experience, knowledge, skills, valuable contribution to the Company and overall performance evaluation of Mr. Somayajulu Ayyanna Kodukula and recommended his re-appointment for second term of consecutive two years to the Members of the Company for approval.

Mr. Somayajulu Ayyanna Kodukula, has given a declaration to the Board that he meets the criteria of independence as provided under section 149 (6) of the Companies Act, 2013.

In the opinion of the Board, Mr. Somayajulu Ayyanna Kodukula, fulfills the conditions as specified in the Companies Act, 2013 and the rules made thereunder read with Schedule IV for appointment as an Independent Director.

Mr. Somayajulu Ayyanna Kodukula, does not hold any share in the Company in his name.

Copy of the draft letter of appointment of Mr. Somayajulu Ayyanna Kodukula, as an Independent Director setting out the terms and conditions is available for inspection by members at the registered office of the Company.

Accordingly, the Board recommends the Special Resolution as set out in item No. 4 of the Notice for the approval of the Members.

Brief profile, qualification, experience, date of appointment on Board, number of Board meeting attended during the financial year 2017-18, directorships, membership/chairmanships of the Committees held in other companies of Mr. Somayajulu Ayyanna Kodukula, are enclosed along with the explanatory statement/ corporate governance report.

Save and except Mr. Somayajulu Ayyanna Kodukula and his relatives, to the extent of their shareholding interest, if any, in the Company, none of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution set out at Item No. 4 of the Notice.

#### **Item No. 5**

## Management Discussion & Analysis

### Economic review

#### Global economy

Economic activity seems to be strong, driven by trade growth, easy monetary policies, and positive consumer sentiment. Amid moderating international trade and tightening global financing conditions, growth in emerging market and developing economies (EMDEs) is projected to plateau, reaching 4.7 percent in 2019 and 2020, up from 4.5 percent in 2018.

The improved global economic situation provides an opportunity for countries to focus policies towards longer term issues such as low carbon economic growth, reducing inequalities, economic diversification and eliminating deep rooted barriers that hinder development.

In EMDEs, growth in commodity importers is expected to remain robust, while the rebound in commodity exporters is projected to mature. Risks to the outlook are tilted to the downside, including the possibility of disorderly financial market movements, escalating trade protectionism, heightened policy uncertainty and rising geopolitical tensions.

#### Indian economy

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organization (CSO) and International Monetary Fund (IMF) and it is expected to be one of the top three economic powers of the world over the next 10-15 years, backed by its strong democracy and partnerships. India's GDP is estimated to have increased 6.6 per cent in 2017-18 and is expected to grow 7.3 per cent in 2018-19.

The Govt of India made a provision in its current budget, a total of ₹ 14.34 lakh crore (US\$ 225.43 billion) to be spent for creation of livelihood and infrastructure in rural areas. Budgetary allocation for infrastructure is set at ₹ 5.97 lakh crore (US\$ 93.85 billion) for 2018-19. All-time high allocations have been made to the rail and road sectors.

India has retained its position as the third largest startup base in the world with over 4,750 technology startups, with about 1,400 new start-ups being founded in 2016, according to a report by NASSCOM.

India's labour force is expected to touch 160-170 million by 2020, based on rate of population growth, increased labour force participation, and higher education enrolment, among other factors, according to a study by ASSOCHAM and Thought Arbitrage Research Institute. India's gross domestic product (GDP) is expected to reach US\$ 6 trillion by FY27.

#### Real estate Industry

The real estate sector is one of the most globally recognized sectors while considering economic development. In India, real estate is the second largest employer after agriculture and is slated to grow at 30 per cent over the next decade. The real estate sector comprises four sub sectors - housing, retail, hospitality and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

The Indian real estate market is expected to touch US\$ 180 billion by 2020. Housing sector is expected to contribute around 11 per cent to India's GDP by 2020. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

New housing launches across top seven cities in India increased 27 per cent year-on-year in January -March 2018.

Sectors such as IT and ITeS, retail, consulting and e-commerce have registered high demand for office space in recent times. Office space demand in the country increased 23 per cent year-on-year in January-March 2018 with office space absorption at 11.4 million square feet during the quarter. Private equity inflows in office and IT/ITES real estate have grown 150 per cent between 2014 and 2017 backed by a strong attraction towards office sector.

### **Warehousing**

The Company is carefully keeping its focus to set up large scale non agro warehouses at strategic locations. Logistics and warehousing plays an indispensable role in the transportation of goods across the country. India's warehousing requirement is expected to grow at an annual average rate of 9% to 1,439 million sq. ft in 2019 from 919 million sq. ft in 2014 and the government's renewed focus on incentivizing the manufacturing sector is key to the growth of warehousing, adding that the logistics market will reap the benefits of this growth in coming years. The whiff of such a mammoth opportunity has attracted global pioneers in warehousing expertise to Indian shores.

Strong and sustained demand levels amid limited availability of good quality warehouses for immediate possession led to rental value appreciation across select micro-markets. Considering the huge potentials in this sector, the Company resolved to revive its warehousing projects and now planning to set up a facility aggregating to 1.5 million sq ft at Jhajjar and Nagpur.

### **Retail infrastructure**

The Company is contemplating to strengthen its portfolio in managing shopping cum entertainment centers at various locations on long term lease model. This will help the Company to create assets on capital light model. The Company has aligned this business with Star Shopping Centres Private Limited (SSCPL), in which the Company holds 60% equity capital and to consolidate and achieve scale of operations, a scheme of merger is underway to merge SSCPL with the Company. The scheme is expected to strengthen the financials of the Company at standalone basis and also improve operational efficiency.

### **Risk**

#### **Business Risk**

The business of construction and development is heavily dependent on the performance of the real estate market in India and could be adversely affected if market conditions deteriorate. The real estate market is significantly affected by changes in government policies, economic conditions, demographic trends, employment and income levels and interest rates, among other factors. The development of real estate projects involves various risks including regulatory risks, financing risks and the risks that these projects may ultimately prove to be unprofitable.

#### **Rental realizations**

The rental realizations on the space leased depends upon the project location, design, tenant mix (this is relevant in the case of shopping malls), prevailing economic conditions and competition. Your Company has set up its retail property in prime location and maintains a fresh ambience resulting in crowd pull and attracting first time kind of retailers.

#### **Economy Risk**

Economic and market conditions can adversely affect the performance of the Company. In particular, the decline in the performance of the global and Indian economies as a result of the economic downturn can reduce demand and occupancy levels in property markets. An increase in interest rates or an increase in the margin on which finance can be obtained may increase the Company and the Subsidiary's financing costs and such increase in interest rates may increase the cost of borrowing, which could have an adverse impact on the Company and the Subsidiary's business, financial condition and results of operations.

#### **Financing costs**

The acquisition of land and development rights needs substantial capital outflow. Inadequate funding resources and high interest costs may impact regular business and operations.

Your Company has always tried to build sufficient reserves resulting out of operating cash flows to take advantage of any land acquisition or development opportunity.

### **Outlook**

Post implementation of The Real Estate (Regulation and Development) Act, 2016 (RERA), developers are focusing firmly on selling their existing ready inventory and finishing their near completion projects rather than launching new projects. With several smaller realty developers interested in either monetizing their land parcels on outright basis or entering into joint development or development management agreements, your Company believes that RERA shall result in a consolidation in the sector.

## Financial Performance

**Total Income:** The Company achieved total revenue of ₹ 11437.69 Lakhs during the financial year ended March 31, 2018.

**Operating Profit:** During the year financial year ended March 31, 2018, the Company achieved operating profit of ₹ 3,033.50 Lakhs.

**Profit/Loss after Tax:** The Company recorded Profit of ₹ 180.28 Lakhs for financial year ended March 31, 2018.

## Internal Control System and Adequacy

The Company has adequate internal control procedure commensurate with its size and nature of the business. The internal control system is supplemented by extensive internal audits, regular reviews by management and well-documented policies and guidelines to ensure reliability of financial and all other records to prepare financial statements and other data. Moreover, the Company continuously upgrades these systems in line with best accounting practices. The Company has independent audit systems to monitor the entire operations and the Audit Committee of the Board review the findings and recommendations of the internal auditors.

## Human Resources

The Company regards its human resources as amongst its most valuable assets and proactively reviews policies and processes by creating a work environment that encourages initiative, provides challenges and opportunities and recognizes the performance and potentials of its employees. The industrial relations across different locations of the Company were cordial during the year. The Company has, over the last few months, built the team necessary to be able to build and execute the vision that has been articulated in the preceding paragraphs. The total number of employees of the Company as on March 31, 2018 stood at 18.

## Cautionary Statement

This report contains forward-looking statements based on certain assumptions and expectations of future events. Actual performance, results or achievements may differ from those expressed or implied in any such forward looking statements. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

# **Standalone Financial Statements and Notes**

## INDEPENDENT AUDITOR'S REPORT

To the Members of

**FUTURE MARKET NETWORKS LIMITED**

### **Report on the Standalone Financial Statements**

We have audited the accompanying standalone financial statements of FUTURE MARKET NETWORKS LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements to give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls and ensuring their operating effectiveness and the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act and the rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Ind AS specified under Section 133 of the Act, of the state of affairs of the Company as at March 31, 2018, its profit (including other comprehensive income), its cash flows and changes in equity for the year ended on that date.

### **Emphasis of Matter**

Attention is drawn to Note No. 35 of standalone financial statements.

The Company has sub lease rights with respect to a shopping mall in Mumbai and there were serious disputes amongst the parties under the said arrangement. During the year 2017-18, the parties have arrived at a settlement in a suit filed by the Company and tendered consent terms with Hon'ble High Court of Bombay in the suit filed by the Company. The consent terms deals with settlement of long standing dispute between the Company including settlement of past claims of sub lessor and in terms of the settlement entire outstanding till June 30, 2017 is settled for an amount of ₹ 35.10 Cr, which is payable over

a period of 3 years (over and above the existing receivables standing in the books) and the arrangement provides for future lease period and reduced rentals for the sub lease period upto August 2027. The arrangement deals with entitlement of lease rental in respect of premises owned by various third parties and a minority of such third party owners have intervened in the matter raising objections with respect of approval of consent terms by the Hon'ble Court. The Court has taken the consent terms on record but not yet issued an order sanctioning the consent terms. In case, the consent terms are accepted as filed, the Company will have to honor its payment obligations for the said amount after payments made, if any, and the parties shall be administrated in terms of the said consent terms. However, if the consent terms are not approved as agreed by the parties, it shall be relegated to the original position of the suit filed by the Company. In view of this, the above has been disclosed as contingent liabilities pending approval of Hon'ble High Court in relation to the consent terms.

Our opinion is not modified in respect of these matters.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure 1", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - c. The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flow and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
  - d. In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act;
  - e. On the basis of written representations received from the directors as on March 31, 2018, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act;
  - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2".
  - g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - (i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 35 on Contingent Liabilities to the standalone financial statements;
    - (ii) The Company did not have any long-term contracts including derivative contracts. Hence, the question of any material foreseeable losses does not arise;

### ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date

#### **Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of FUTURE MARKET NETWORKS LIMITED ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that :

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note issued by Institute of Chartered Accountants of India.

## Notes to financial statements for the year ended March 31, 2018

### 1. BACKGROUND

Future Market Networks Limited (The Company) is a public limited company incorporated in India under the provisions of Companies Act, 1956 and validly existing under Companies Act, 2013. Equity shares of the Company are listed with BSE Limited and National Stock Exchange of India Limited. The company is engaged in the business of building capacity and enabling the infrastructure for future markets in a more efficient and cost effective manner. It aims to create a network of new markets by integrating and better organizing the modern wholesale trade, retail and logistics infrastructure in India. The Company is currently managing approximately 1 million sq ft of retail space and owns various real estate properties across India.

### 2. Significant Accounting Policies:

#### a) Basis of preparation

##### i. Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The accounting policies are applied consistently to all the periods presented in the financial statements.

##### ii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities that is measured at fair value;
- assets held for sale measured at lower of carrying amount or fair value less cost to sell; and
- share-based payments

##### iii. Current non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

#### b) Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as separate assets, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

##### Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term. Leasehold improvements are amortised over the period of lease or estimated useful life, whichever is lower.

##### Useful life considered for calculation of depreciation for various assets class are as follows-

• Leasehold Improvements	16 years
• Machinery	10 years
• Furniture, fittings and equipment	10 years
• Office and other equipments	5 Years
• Computers	3 Years

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/ (losses).

#### c) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the

**Notes to financial statements for the year ended March 31, 2018**

item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Freehold land is carried at cost. Investment properties are depreciated using the straight-line method over their estimated useful lives.

Useful life considered for calculation of depreciation for Freehold Building is as follows-

- Freehold buildings 60 years

**d) Investments and other financial assets:**

**i. Classification**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The Classification depends on the entity's business model for managing the financial assets and the contractual term of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

**ii. Measurement of financial assets**

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

**Debt instruments:**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into following categories:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method.

**Equity instruments**

The Company subsequently measures all equity investments other than in subsidiaries, joint ventures and associates at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to Statement of Profit and Loss. Dividends from such investments are recognised in profit or loss as other income when the right to receive of the Company established.

**iii. Impairment of financial assets**

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 24 details how the company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

**iv. Derecognition of financial assets**

A financial asset is derecognised only when

- The company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

A financial liability is recognised when the obligation specified in the contract is discharged, completed or expired.

## Notes to financial statements for the year ended March 31, 2018

### e) Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

### f) Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

### g) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

### h) Cash and Cash Equivalents

Cash and cash equivalents includes cash in hand, deposits with banks and short term highly liquid investments, which are readily convertible into cash and have original maturities of three months or less from the Balance Sheet date.

### i) Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

#### Recognising revenue from major business activities

##### Sale of Goods

Sales are recognized when significant risk and rewards of ownership of goods have passed to the buyer which coincides with the delivery and they are recorded net of trade discount, VAT and sales tax, Goods and service tax (GST).

##### Income from Services

Revenue from services rendered is recognized as the service is performed based on agreements/ arrangement with concerned parties and revenue from end of the last billing to the balance sheet date is recognized as unbilled revenue.

Lease rentals income is recognized in the Statement of Profit and Loss as per the terms of agreement which is representative of the time pattern of the user's benefit.

### j) Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement. Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal Company classified as held for sale continue to be recognised.

### k) Employee Benefits:

#### Short term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

#### Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

## Notes to financial statements for the year ended March 31, 2018

### Post-employment obligations

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) Defined contribution plans such as provident fund.

### Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Re measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

### Defined contribution plans

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

### Share-based payments

Estimating fair values for share based payment transaction requires the most appropriate valuation model, which depends on the terms and conditions of the grant. The estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity settled transactions with employees at the grant date, the Company uses Black – Scholes model. The assumptions used for estimating the fair value for share based transactions are disclosed in Note 29.

## I) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

## Notes to financial statements for the year ended March 31, 2018

### m) Leases:

#### As a lessee

Leases of property, plant and equipment where the company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

#### As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

### n) Foreign Currency transactions:

#### Functional and presentation currency

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Indian rupee (INR), which is Future Market Network's Limited's functional and presentation currency.

#### Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

### o) Inventories:

Inventories which comprise of finished stock of completed projects are valued at lower of cost or net realizable value. Cost is determined by including cost of land (including development rights), internal development cost, external development charges, materials, services, related overheads and apportioned borrowing costs.

### p) Investments in subsidiaries, joint ventures and associates

Investments in subsidiaries, joint ventures and associates are recognised at cost as per Ind AS 27. Except where investments accounted for at cost shall be accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale.

### q) Earnings per share

#### Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (note 26).

#### Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

### r) Segment Reporting:

The Company is primarily engaged in the activity of mall management business and considers it to be a single reportable business segment. The operations of the Company are within the geographical territory of India which is considered as a single geographical segment. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Managing Director, who has been identified as being the chief operating decision maker, assesses the financial performance and position of the company, and makes strategic decisions. Refer note 25 for segment information presented.

### s) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

## Notes to financial statements for the year ended March 31, 2018

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

### t) Borrowing costs

Borrowing costs directly attributable to the acquisition and construction of an asset which takes a substantial period of time to get ready for its intended use are capitalized as a part of the cost of such assets, until such time the asset is substantially ready for its intended use. All other borrowing costs are recognized in the Statement of Profit and Loss in the period they occur. Borrowing costs consist of interest and other costs incurred in connection with borrowing of funds.

Other borrowing costs are expensed in the period in which they are incurred.

### u) Provisions and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The increase in the provision due to the passage of time is recognised as interest expense. Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

### v) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

### w) Critical estimates and judgments

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal and actual results. Management also needs to exercise judgement in applying the company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- Estimation of defined benefit obligation (Note no 14)
- Estimation of current tax expense and payable (Note no 6)
- Estimated Fair value of unlisted securities – (Note 23)

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

### x) Recent accounting pronouncements

#### Ind AS 115

In March 2018, the Ministry of Corporate Affairs as notified the Companies (Indian Accounting Standards) Amended Rules, 2018 ("amended rules"). As per the amended rules, Ind AS 115 "Revenue from contracts with customers" supersedes Ind AS 11, "Construction contracts" and Ind AS 18, "Revenue" and is applicable for all accounting periods commencing on or after April 1, 2018.

Ind AS 115 introduces a new framework of five step model for the analysis of revenue transactions.

The model specifies that revenue should be recognized when (or as) an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The new revenue standard is applicable to the Company from April 1, 2018.

The standard permits two possible methods of transition:

Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach)

The Company is evaluating the requirement of the amendment and the impact on the financial statements. The effect on adoption of Ind AS 115 is expected to be insignificant"

Assets and liabilities which are measured at amortised cost for which fair values are disclosed are calculated under Level 3 except loans and security deposits which is measured at Level 2.

Investment in Equity Shares which are measured at Fair Value through Other Comprehensive Income are measured under Level 3.

## Notes to the financial statements for the year ended March 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

### Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the periods ended March 31, 2018:

	Investment in- Equity instruments
<b>As at March 31, 2016</b>	<b>1,083.44</b>

<b>As at March 31, 2018</b>	<b>844.92</b>

### Valuation processes

The Company has obtained assistance of independent and competent third party valuation experts to perform the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. Discussions of valuation processes and results are held between the Company and the valuer on periodic basis. Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset.

### 23(c) Fair value of financial assets and liabilities measured at amortised cost

	March 31, 2018		March 31, 2017	
	Carrying amount	Fair value	Carrying amount	Fair value
<b>Financial assets</b>				
Loans	11,822.16	11,867.35	12,767.62	12,851.89
<b>Total financial assets</b>	<b>11,822.16</b>	<b>11,867.35</b>	<b>12,767.62</b>	<b>12,851.89</b>
<b>Financial liabilities</b>				
Borrowings	16,265.81	16,265.81	22,665.91	22,665.91
Deposits from customer	8,895.68	9,000.81	3,853.41	3,927.15
<b>Total financial liabilities</b>	<b>25,161.49</b>	<b>25,266.62</b>	<b>26,519.32</b>	<b>26,593.06</b>

### The following methods and assumptions were used to estimate the fair values:

1. Fair value of trade receivables, trade payables, cash and cash equivalent, Bank balances other than above, other financial assets and other financial liabilities approximate their carrying amounts largely due to short term maturities of these instruments.
2. The fair values for loans and security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 in the fair value hierarchy due to the inclusion of observable inputs.
3. The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.
4. For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.
5. The fair value of the long-term Borrowings with floating-rate of interest is not impacted due to interest rate changes and will not be significantly different from their carrying amounts as there is no significant change in the underlying credit risk of the Company borrowing (since the date of inception of the loans). Further, the Company has no long-term Borrowings with fixed rate of interest.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

**Notes to the financial statements for the year ended March 31, 2018**

(All amounts in INR lakhs, unless otherwise stated)

**24. Financial risk management**

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk are reviewed regularly to reflect changes in market conditions and the company's activities.

**A. Market risks**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. The company is not exposed to any foreign currency risk as neither operates internationally nor has any foreign currency transaction.

(a) *Price Risk - Exposure:*

The Company's exposure to equity securities price risk arises from investments held by the Company and classified in the balance sheet at fair value through OCI. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

	March 31, 2018	March 31, 2017
BSE Sensex 30- Increase 5%	25.53	-
BSE Sensex 30- Decrease 5%	(25.53)	-

Above referred sensitivity pertains to investment in quoted securities . Profit for the year would increase/(decrease) as a result of gains/ (losses) on the same as at fair value through profit or loss.

(b) *Interest rate risk*

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

	March 31, 2018	March 31, 2017
Variable rate borrowings	7,788.01	15,879.31
Percentage of variable rate borrowings to total borrowings	38%	53%
<b>Total borrowings</b>	<b>20,548.32</b>	<b>30,088.52</b>

**Sensitivity**

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

	March 31, 2018	March 31, 2017
Interest rates – increase by 50 basis points*	(38.94)	(79.40)
Interest rates – decrease by 50 basis points*	38.94	79.40

\*Holding all other variables constant

**B. Credit Risks**

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables).

**Trade receivables**

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management.

The Company measures the expected credit loss of trade receivables and loan & advances customers wise based on historical trend. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, adequate provision for the loss on collection of receivable has been made.

**Movement in provisions of doubtful debts**

	As at March 31, 2018	As at March 31, 2017
<b>Opening provision</b>	<b>84.62</b>	<b>666.64</b>
Add:- Additional provision made	32.59	-
Less:- Provision write off	25.90	74.12
Less:- Provision reversed	-	507.90
<b>Closing provisions</b>	<b>91.31</b>	<b>84.62</b>

Financial Assets are considered to be of good quality and there is no significant increase in credit risk

### C. Liquidity Risk:

Liquidity risk is the risk that the company will face in meeting its obligations associated with its financial liabilities. The company's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. A material and sustained shortfall in our cash flow could undermine the company's credit rating and impair investor confidence.

The following table shows the maturity analysis of the company's financial liabilities based on contractually agreed undiscounted cash flows as at the balance sheet date:

Maturity patterns of liabilities:

## Notes to the financial statements for the year ended March 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

- (d) The Company has sub lease rights with respect to a shopping mall in Mumbai and there were serious disputes amongst the parties under the said arrangement. During the year 2017-18, the parties have arrived at a settlement in a suit filed by the Company and tendered consent terms with Hon'ble High Court of Bombay in the suit filed by the Company. The consent terms deals with settlement of long standing dispute between the Company including settlement of past claims of sub lessor and in terms of the settlement entire outstanding till 30th June 2017 is settled for an amount of ₹ 35.10 Cr, which is payable over a period of 3 years (over and above the existing receivables standing in the books) and the arrangement provides for future lease period and reduced rentals for the sub lease period upto August 2027. The arrangement deals with entitlement of lease rental in respect of premises owned by various third parties and a minority of such third party owners have intervened in the matter raising objections with respect of approval of consent terms by the Hon'ble Court. The Court has taken the consent terms on record but not yet issued an order sanctioning the consent terms. In case, the consent terms are accepted as filed, the Company will have to honour its payment obligations for the said amount after payments made, if any, and the parties shall be administrated in terms of the said consent terms. However, if the consent terms are not approved as agreed by the parties, it shall be relegated to the original position of the suit filed by the Company . In view of this, the above has been disclosed as contingent liabilities pending approval of Hon'ble High Court in relation to the consent terms.

## INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF FUTURE MARKET NETWORKS LIMITED

### Report on Consolidated Financial Statements

We have audited the accompanying Consolidated Financial Statement of **FUTURE MARKET NETWORKS LIMITED** ("the Holding Company") and its subsidiaries (together referred to as "the Group"), which includes Group's shares of profit in its joint venture and associate companies, comprising of the Consolidated Balance Sheet as at March 31, 2018, the Consolidated Profit and Loss Statement (including other Comprehensive Income), the Consolidated Cash Flow Statement and the Statement of Changes in Equity for the year ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

### Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated cash flows and changes in equity of the Group including its associates and joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated financial statements.

The respective Board of Directors of the companies included in the group and of its associates and joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and its associates and joint ventures respectively and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of consolidated financial statements by the Directors of the Holding Company, as aforesaid.

### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

While conducting the audit, we have taken into account the provisions of the Act and the rules made thereunder including the accounting standards and matters which are required to be included in the audit report. We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial Statements whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial Statements that gives true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Board of Directors of the Holding Company, as well as evaluating the overall presentation of the consolidated financial Statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements of the subsidiaries, associates and joint ventures referred to below in the Other Matters paragraph, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its joint ventures as at March 31, 2018, and their consolidated profit / loss (including Other Comprehensive Income), their consolidated cash flows and consolidated changes in equity for the year ended on that date.

### Emphasis of Matter

Attention is drawn to Note No. 35 of Consolidated financial statements.

The holding company has sub lease rights with respect to a shopping mall in Mumbai and there were serious disputes amongst the parties under the said arrangement. During the year 2017-18, the parties have arrived at a settlement in a suit filed by the holding company and tendered consent terms with Hon'ble High Court of Bombay in the suit filed by the holding company. The consent terms deals with settlement of long standing dispute between the holding company including settlement of past claims of sub lessor and in terms of the settlement entire outstanding till June 30, 2017 is settled for an amount of ₹ 35.10 Cr, which is payable over a period of 3 years (over and above the existing receivables standing in the books) and the arrangement provides for future lease period and reduced rentals for the sub lease period upto August 2027. The arrangement deals with entitlement of lease rental in respect of premises owned by various third parties and a minority of such third party owners have intervened in the matter raising objections with respect of approval of consent terms by the Hon'ble Court. The Court has taken the consent terms on record but not yet issued an order sanctioning the consent terms. In case, the consent terms are accepted as filed, the holding company will have to honor its payment obligations for the said amount after payments made, if any, and the parties shall be administrated in terms of the said consent terms. However, if the consent terms are not approved as agreed by the parties, it shall be relegated to the original position of the suit filed by the holding company. In view of this, the above has been disclosed as contingent liabilities pending approval of Hon'ble High Court in relation to the consent terms.

Our opinion is not modified in respect of these matters.

### ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS OF FUTURE MARKET NETWORKS LIMITED

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ in the Independent Auditor’s Report of even date)

#### **Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of FUTURE MARKET NETWORKS LIMITED (“the Holding Company”), its subsidiaries and jointly venture (the holding company and its subsidiaries together referred to as “the group”), as of March 31, 2018 in conjunction with our audit of the consolidated financial statements of the Holding Company for the year ended on that date.

#### **Management’s Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company’s its subsidiaries, associates, and jointly controlled entities all incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors’ Responsibility**

Our responsibility is to express an opinion on the Holding Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls both applicable to an audit of Internal financial controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence obtained by us and by the other auditors of the subsidiaries and jointly controlled entities in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company’s internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company, its subsidiaries, its associates and its jointly controlled entities have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the the Holding Company, its subsidiaries, its associates and its jointly ventures considering the essential components of internal control stated in the Guidance Note on Audit On Internal Financial Controls Over Financial Reporting issued by the ICAI.

**Other Matters**

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls system over financial reporting insofar as it relates to six subsidiaries and five joint ventures, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

## 1. BACKGROUND

Future Market Networks Limited (The Holding Company) is a public limited company incorporated in India under the provisions of Companies Act, 1956 and validly existing under Companies Act, 2013. Equity shares of the Group are listed with BSE Limited and National Stock Exchange of India Limited. The group is engaged in the business of building capacity and enabling the infrastructure for future markets in a more efficient and cost effective manner. It aims to create a network of new markets by integrating and better organizing the modern wholesale trade, retail and logistics infrastructure in India. The Group is currently managing approximately 1 million sq. ft. of retail space and owns various real estate properties across India.

## 2. Significant Accounting Policies:

### (a) Basis of preparation

#### (i) Compliance with Ind AS:

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

#### (ii) Historical cost convention:

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities that is measured at fair value;
- assets held for sale measured at lower of carrying amount or fair value less cost to sell; and
- share-based payments

#### (iii) Current non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

### **Principles of consolidation and equity accounting:**

#### (i) *Subsidiaries*

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intergroup transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

#### (ii) *Associates*

Associates are all entities over which the group has significant influence but not control or joint control. This is generally the case where the group holds between 20% to 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iv) below), after initially being recognised at cost.

#### (iii) *Joint ventures*

Interests in joint ventures are accounted for using the equity method (see (iv) below), after initially being recognised at cost in the consolidated balance sheet.

#### (iv) *Equity method*

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post -acquisition profits or losses of the investee in profit and loss, an other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in note 1 (h) below.

### (v) Changes in ownership interests

The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity (note 33).

When the group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

### (b) Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate assets, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

#### Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term. Leasehold improvements are amortised over the period of lease or estimated useful life, whichever is lower.

• Leasehold Improvements	16 years
• Machinery	10 years
• Furniture, fittings and equipment	10 years
• Office and other equipments	5 Years
• Computer and software	3 Years

The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/ (losses).

### (c) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Freehold land is carried at cost. Investment properties are depreciated using the straight-line method over their estimated useful lives.

Useful life considered for calculation of depreciation for Freehold Building is as follows-

• Freehold buildings	60 years
----------------------	----------

### (d) Investments and other financial assets:

#### i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The Classification depends on the entity's business model for managing the financial assets and the contractual term of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable Election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

**(ii) Measurement of financial assets**

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

**Debt instruments:**

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its debt instruments into following categories:

- a. Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method.

**Equity instruments**

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to Statement of Profit and Dividends from such investments are recognised in profit or loss as other income when the Group established.

**(i) Impairment of financial assets**

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 24 details how the group determines whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

**(ii) Derecognition of financial assets**

A financial asset is derecognised only when

- The group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the group has not retained control of the financial asset. Where the group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

A financial liability is recognised when the obligation specified in the contract is discharged, completed or expired.

**(iii) Income recognition**

**Interest income**

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

**Dividends**

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

**(e) Trade receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

### (f) Cash and Cash Equivalents

Cash and cash equivalents includes cash in hand, deposits with banks and short term highly liquid investments, which are readily convertible into cash and have original maturities of three months or less from the Balance Sheet date.

### (g) Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

#### Recognising revenue from major business activities

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and can be reliably measured.

#### Sale of Goods

Sales are recognized when significant risk and rewards of ownership of goods have passed to the buyer which coincides with the delivery and they are recorded net of trade discount, Goods & Service Tax (GST), VAT and sales tax.

#### Income from Services

Revenue from services rendered is recognized as the service is performed based on agreements/ arrangement with concerned parties and revenue from end of the last billing to the balance sheet date is recognized as unbilled revenue.

Lease rentals income is recognized in the Statement of Profit and Loss as per the terms of agreement which is representative of the time pattern of the user's benefit.

### (h) Impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

### (i) Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement. Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

### (j) Employee Benefits:

#### Short term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees's service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

#### Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

**Post-employment obligations**

The Group operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) defined contribution plans such as provident fund.

**Gratuity obligations**

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Re measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

**Defined contribution plans**

The Group pays provident fund contributions to publicly administered provident funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Termination Benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits at the earlier of the following dates: (a) when the Group can no longer withdraw the offer of those benefits; (b) when the Group recognizes costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits.

In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

**Share-based payments**

Estimating fair values for share based payment transaction requires the most appropriate valuation model, which depends on the terms and conditions of the grant. The estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity settled transactions with employees at the grant date, the Group uses Black Scholes model. The assumptions used for estimating the fair value for share based transactions are disclosed in Note 28.

**(k) Income tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the group and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Group will pay normal income tax during the specified period.

**(l) Leases:**

**As a lessee**

Leases of property, plant and equipment where the group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Leases in which a significant portion of the risks and rewards of ownership are not transferred to the group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

**As a lessor**

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

**(m) Foreign Currency transactions:**

**Functional and presentation currency**

Items included in the financial statements of each of the group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Indian rupee (INR), which is Future Market Networks Limited's functional and presentation currency.

**Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

**(n) Inventories:**

Inventories which comprise of finished stock of completed projects are valued at lower of cost or net realizable value. Cost is determined by including cost of land (including development rights), internal development cost, external development charges, materials, services, related overheads and apportioned borrowing costs.

**(o) Earnings per share**

**Basic earnings per share**

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (note 26).

**Diluted earnings per share**

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

**(p) Segment Reporting:**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Group is primarily engaged in the activity of mall management business and considers it to be a single reportable business segment. The operations of the Group are within the geographical territory of India which is considered as a single geographical segment. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Managing Director, who has been identified as being the chief operating decision maker, assesses the financial performance and position of the group, and makes strategic decisions. Refer note 25 for segment information presented.

**(q) Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

**(r) Borrowing costs**

Borrowing costs directly attributable to the acquisition and construction of an asset which takes a substantial period of time to get ready for its intended use are capitalized as a part of the cost of such assets, until such time the asset is substantially ready for its intended use. All other borrowing costs are recognized in the Statement of Profit and Loss in the period they occur. Borrowing costs consist of interest and other costs incurred in connection with borrowing of funds.

Other borrowing costs are expensed in the period in which they are incurred.

**(s) Provisions and contingent liabilities**

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The increase in the provision due to the passage of time is recognised as interest expense. Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

**(t) Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

**(u) Critical estimates and judgments**

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal and actual results. Management also needs to exercise judgement in applying the groups accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- a) Estimation of defined benefit obligation (Note 14)
- b) Estimation of current tax expense and payable (Note 6)
- c) Estimated Fair value of unlisted securities – (Note 23)

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

**(v) Recent accounting pronouncements**

**Ind AS 115**

In March 2018, the Ministry of Corporate Affairs as notified the Companies (Indian Accounting Standards) Amended Rules, 2018 ("amended rules"). As per the amended rules, Ind AS 115

"Revenue from contracts with customers" supersedes Ind AS 11, "Construction contracts" and Ind AS 18, "Revenue" and is applicable for all accounting periods commencing on or after 1 April 2018.

Ind AS 115 introduces a new framework of five step model for the analysis of revenue transactions.

The model specifies that revenue should be recognized when (or as) an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The new revenue standard is applicable to the Company from 1 April 2018.

The standard permits two possible methods of transition: :

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach)

The Company is evaluating the requirement of the amendment and the impact on the financial statements. The effect on adoption of Ind AS 115 is expected to be insignificant"

## 23(b) Fair value hierarchy

Investment in Mutual Funds which are measured at Fair Value through Profit and Loss Account are measured under Level 1.

Assets and liabilities which are measured at amortised cost for which fair values are disclosed are calculated under Level 3 except loans and security deposits which is measured at Level 2.

Investment in Equity Shares which are measured at Fair Value through Other Comprehensive Income are measured under Level 3.

**Fair value measurements using significant unobservable inputs (level 3)**

The following table presents the changes in level 3 items for the periods ended March:

	Investment in - Equity instruments

**Valuation processes**

The group has obtained assistance of independent and competent third party valuation experts to perform the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. Discussions of valuation processes and results are held between the group and the valuer on periodic basis. Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset.

<b>Total financial liabilities</b>	<b>39,547.82</b>	<b>39,654.93</b>	<b>44,908.16</b>	<b>44,984.72</b>

The following methods and assumptions were used to estimate the fair values:

1. Fair value of trade receivables, trade payables, cash and cash equivalent, Bank balances other than above, other financial assets and other financial liabilities approximate their carrying amounts largely due to short term maturities of these instruments.
2. The fair values for loans and security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 in the fair value hierarchy due to the inclusion of observable inputs.
3. The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.
4. For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.
5. The fair value of the long-term Borrowings with floating-rate of interest is not impacted due to interest rate changes and will not be significantly different from their carrying amounts as there is no significant change in the underlying credit risk of the Company's borrowing (since the date of inception of the loans). Further, the Company has no long-term Borrowings with fixed rate of interest.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

**24. Financial risk management**

The group's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The group's senior management has overall responsibility for the establishment and oversight of the group's risk management framework. The group's risk are reviewed regularly to reflect changes in market conditions and the group's activities.

**A. Market risks**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. The group is not exposed to any foreign currency risk as neither operates internationally nor has any foreign currency transaction.

(a) Price Risk - Exposure:

The group's exposure to equity securities price risk arises from investments held by the group and classified in the balance sheet at fair value through OCI. To manage its price risk arising from investments in equity securities, the group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the group.

## Notes to the consolidated financial statements for the year ended March 31, 2018

(All amounts in INR lakhs, unless otherwise stated)

	March 31, 2018	March 31, 2017
BSE Sensex 30- Increase 5%	118.48	-
BSE Sensex 30- Decrease 5%	(118.48)	-

Above referred sensitivity pertains to investment in quoted securities. Profit for the year would increase/(decrease) as a result of gains/ (losses) on the same as at fair value through profit or loss.

## (b) Interest rate risk

The exposure of the group's borrowing to interest rate changes at the end of the reporting period are as follows:

	March 31, 2018	March 31, 2017
Variable rate borrowings	8,411.27	16,883.71
Percentage of variable rate borrowings to total borrowings	36%	50%
<b>Total borrowings</b>	<b>23,451.02</b>	<b>34,065.94</b>

**Sensitivity**

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

	Impact on profit after tax	
	March 31, 2018	March 31, 2017
Interest rates – increase by 50 basis points*	(42.06)	(84.42)
Interest rates – decrease by 50 basis points*	42.06	84.42

\*Holding all other variables constant

**B. Credit Risks**

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables).

**Trade receivables**

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management.

The group measures the expected credit loss of trade receivables and loan & advances customers wise based on historical trend. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, adequate provision for the loss on collection of receivable has been made.

**Movement in provisions of doubtful debts**

Less:- Provision write off	25.89	74.11
Less:- Provision reversed	-	507.90
<b>Closing provisions</b>	<b>91.32</b>	<b>84.63</b>

Financial Assets are considered to be of good quality and there is no significant increase in credit risk

**C. Liquidity Risk:**

Liquidity risk is the risk that the group will face in meeting its obligations associated with its financial liabilities. The group's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. A material and sustained shortfall in our cash flow could undermine the group's credit rating and impair investor confidence.

The following table shows the maturity analysis of the group's financial liabilities based on contractually agreed undiscounted cash flows as at the balance sheet date:

The Company has filed an Arbitration Petition challenging the arbitration award U/s 34 of Arbitration and Conciliation Act, 1996 before the Hon'ble High Court, Calcutta.

Claimant through its Proprietor has also challenged the aforesaid arbitration award before the Hon'ble High Court, Calcutta.

The matters are pending before the High Court, Calcutta.

- (d) The Company has sub lease rights with respect to a shopping mall in Mumbai and there were serious disputes amongst the parties under the said arrangement. During the year 2017-18, the parties have arrived at a settlement in a suit filed by the Company and tendered consent terms with Hon'ble High Court of Bombay in the suit filed by the Company. The consent terms deals with settlement of long standing dispute between the Company including settlement of past claims of sub lessor and in terms of the settlement entire outstand till June 30, 2017 is settled for an amount of ₹ 35.10 Cr, which is payable over a period of 3 years (over and above the existing receivables standing in the books) and the arrangement provides for future lease period and reduced rentals for the sub lease period upto August 2027. The arrangement deals with entitlement of lease rental in respect of premises owned by various third parties and a minority of such third party owners have intervened in the matter raising objections with respect of approval of consent terms by the Hon'ble Court. The Court has taken the consent terms on record but not yet issued an order sanctioning the consent terms. In case, the consent terms are accepted as filed, the Company will have to honour its payment obligations for the said amount after payments made, if any, and the parties shall be administrated in terms of the said consent terms. However, if the consent terms are not approved as agreed by the parties, it shall be relegated to the original position of the suit filed by the Company. In view of this, the above has been disclosed as contingent liabilities pending approval of Hon'ble High Court in relation to the consent terms.
